

7 Loop Hair style

by DANA

LEVEL: EXPERIENCED!

Greetings and Welcome to another YEAR in miniature dollmaking - 2017!

Sophie Sun is my live class sample for San Francisco - September 2017.

In the LIVE CLASS, I will be teaching a simpler hairstyle, and full dressing, draping class.

THIS tutorial is simply showcasing the original 7 loop hairstyle which I won't use in class. VERY HARD! And ... honestly under all the flowers - doesn't show.

As always
Happy Creating!

DOLL:

Painted, designed, wigged and dressed by
DANA of MiniatureART.com

PREPERATION:

1. Place baggie around dressed doll to protect while wiggig.

BACK BUN:

1. Spread glue around scalp - (see photo for placement). LEAVE front open for the upcoming *V* part.
2. Lay strip of SMOOTH viscose from nose to neck.
3. Gently fold back and smooth down.
4. Lightly mist with water to smooth, and twist into bun. I used pins to hold in place until the glue dries.

LOOPS:

1. Take size 15 knitting needle and wrap a VERY tight CURL.
2. Use flat iron - to clamp on rod, then turn, clamp etc until flat iron has dried hair.
3. Slide curl off rod, and cut small piece off main curl.
4. Tweezer one end (to hold) and lightly hair-spray to hold shape. let dry.
5. Glue on two loops on bottom, one on top. Repeat on other side.

WIDOW'S PEAK:

1. Glue down center of hair - right over raw edges of loops that were glued.
2. Lay smooth strip of viscose on top and when dry, flip to back. Gently shape *V* in front with toothpick.

3. Gather hair and roll around the large knitting needle. Lightly hairspray to keep shape.

4. Put a dot of glue under curl to hold in place on top of her head.

5. Now with corsage pin, press down center (see photo) to make two halves.

Lastly - Decorate with flowers, pins, and accents as you desire.

This hair, to get it smooth, flat and let dry - took almost one entire day (for me!!).

And the disappointing part - after I put all the gorgeous flowers on - you can't see 90% of it!

SOOOOO Super difficult - but worth showing you new skills!

Big hug and HAPPY CREATING!
DANA

PS - the wiggclub (Dolls with DANA) day is the last monday of month. Check the www.minidollU.com for updates on time and classes.

PSS - if you are not intermediate in wiggling - I would suggest starting on a different style to work your way up to this.
