

# WIGGING CLUB - February 2015 -- Theesaly

<http://www.miniatureart.com/WC2015/index%20WC.html>

DANA This is the WIGGING CLUB

DANA WElcome!

DANA The class tutorial for today is Theesaly.

DANA She is the Feb tutorial found on the

DANA Ok - this link is the same one as last month  
... I know you guys had that <G>

DANA The link is the SAME every month so you can just print it out

DANA and then won't lose it!

DANA Link is ...

DANA <http://www.miniatureart.com/WC2015/index%20WC.html>

DANA This will be the SAME each month - so please please please -  
save my fingers - print it out.

DANA Alrighty

DANA As explained on the list

DANA this is a master class

DANA if you aren't an experienced dollier

DANA pretty much - you are here to just observe <G>

DANA There is no way I can explain better

DANA then the photos show you.

DANA She is difficult

DANA BUT if you think of her as a puzzle piece

DANA to put together

DANA a whole lot easier!

DANA Ok ...

DANA this class will be question and answer for each section

DANA as it is a master class

DANA Lets begin ...

DANA Page 3

DANA	It is a master class on purpose - - -
DANA	one of the hardest hair styles I have ever done!
DANA	Next month is beginners
DANA	so always something for everyone!
DANA	BUT you do get your \$1 DANA
DANA	DOLLAR for attending class!
DANA	This is your 1st layer
Susann	Just one...as I read it not a wiggling cross but work on 3 sides though 2 done with the one piece
DANA	and the goal is simply to have hair around her whole head
DANA	Susann - correct!
DANA	Once you put on base layer
DANA	you glue two braids as shown
DANA	THEN cover head with plastic bag (with hole)
DANA	to prevent frizzies
DANA	Lets move on to 2nd layer page 4
Susann	Dana, how high on the head are the braids? The picture is hard to see
patty	I was wondering how many strands of floss for the braids
DANA	Susann you want the ends of the braids (raw edge) to be covered by 2nd layer
DANA	Patty --- 3
DANA	3 strands tightly braided
Susann	so just down from the part then?
DANA	Susann - sure - doesn't matter - just so raw edges are covered up!
DANA	Lets move on to page 4
DANA	2nd layer
NathM	why floss instead of viscose?
DANA	Frizz

DANA	page 5
Susann	how ck a bun at b
DANA	?
Susann	at the back...sorry serious coputer problems
Susann	sorry will try again
Susann	how biacked up against itg is the bun at the back. Looks like the jewellery piece is b
Susann	oh dear
Susann	how big is the bun
DANA	do you mean how far is the bun placed at back of head?
Susann	looks like the jewellery piece is backed up against it
DANA	Once the bun is on her head
DANA	and dried
DANA	you and lightly mist it
DANA	and SQUISH it into any shape
DANA	you want
Susann	Dawn will take all night to get back in but thanks
DANA	in this case
DANA	I flattened the the one side
DANA	so crown could rest against it
DANA	Does that help?
Susann	have new computer just need to get it loaded
Susann	ok thanks Dana so you do need a wee bit of a bun not just a small knob
DANA	You can make the back bun any size you wish
DANA	I did it so it was smaller then crown
DANA	no worries!
DANA	Remember ... the only part that isn't buried by decoration <G> is the back of head
DANA	so as long as the crown and ornaments look good on front-

DANA	you are golden!
DANA	Ok ... now lets get to the horns
DANA	1. This is hard
DANA	2. mine aren't the same size
DANA	3. Not sure what to tell you <G>
DANA	you twist and twist
DANA	and glue/pin on head
Susann	no inner support just the pressure of the twist then?
DANA	Yes
DANA	GOOD explanation!!!
DANA	Alrighty ...
DANA	once the horns are glued on
DANA	I lightly hair sprayed
DANA	let dry
DANA	hair sprayed
DANA	let dry
DANA	hair sprayed
DANA	let dry
DANA	until they were stiff
DANA	USE a plastic baggie
DANA	to pink hair between
DANA	so you get rid of frizzies
DANA	You will have to cut some frizzies off of course
DANA	that is the nature of the twisted horns
DANA	Lets move on to the braided circle
DANA	This is the dmc
DANA	braided
DANA	and wrapped around a glue syringe (or whatever you have)
DANA	tied in a knot
DANA	hair sprayed

DANA	and glued on to back of head
DANA	repeat with a smaller size
DANA	Your hairstyle is now done ...
DANA	you can add more decorations
DANA	as you wish of course
DANA	but the big thing I found was using the chain
DANA	this was NOT included in kit
DANA	as posted in ad
DANA	but you can easily find in thrift stores
DANA	in old chains/necklaces
DANA	I have been challenged this year to come up with unique classes ... Hahah
Deb Z	question on the circle braids
DANA	Deb yes?
Deb Z	Are you hiding the knot between the crown and the bun? is that what I'm seeing?
DANA	Yes!
DANA	Once the circle braids are glued on
DANA	I made a small bun
DANA	glued over raw edges!
DANA	Alrighty ...
nadine	Not about hair but, Was she from a book or legend or just your imagination. She is stunning!
NathM	what kind of glue to hold the findings between them?
DANA	Nadine - thank you! She was partially taken from a Deviant Art site --- she had more spacey <G> things - but I made her oriental
DANA	Nath ... I use just Aileens tacky original for all <G>
DANA	Patty - thank you!!!

NathM	it even glues the metal?
DANA	Alrighty ...
DANA	Nath ... hahahh - yup - we did this in france class <G> ... just like the no hole beads! Of course - I can also do the zap a gap drop on top!
DANA	Remember those are the only two glues I use
DANA	Aileens tacky for almost all
DANA	and when added support
DANA	Zap a gap (gel superglue)
DANA	The WAY I glue on decorations
DANA	DANGEROUS
DANA	but my way
DANA	I coat the bottom of object with aileens glue
DANA	(NOT TO EDGE or it will bleed out)
DANA	and then put a tiny pin drop of super glue in several places
DANA	(Again NOT NEAR EDGE)
DANA	THEN press piece on with tweezers
DANA	IF you do it right
DANA	you won't superglue your finger
DANA	to the finding
DANA	to the head <G>
DANA	WHEN the finding is glued on and sturdy
DANA	and dry
DANA	then I go over the entire metal pieces
DANA	with clear fingernail polish
DANA	or off white clear fingernail polish
DANA	sometimes with small glitter
DANA	to soften and blend the different shades of metallic pieces
DANA	WHEN the fingernail polish is wet
DANA	you can also press in those no hole beads
DANA	into the holes

DANA	and it helps them stay sturdy in place.
DANA	Ok - lets do the game
DANA	my fingers are literally done <G> hahah 2 hours of typing
DANA	Grab your pdf ....
DANA	and everyone ready?
DANA	After the last wiggling club tutorial class tonight
DANA	I will post my MARCH wiggling Club Tutorial
DANA	This is a very very very old Josephine mold that was given to
DANA	I poured 10 faces
DANA	she is ala Marcia Blackstrom
DANA	complete with coat dress, lace etc
DANA	The kit is \$30 plus shipping
DANA	free for contest (next)
DANA	and includes painted doll face, dressing kit (with hair).
DANA	Dawn you already bought yours <G> ... Konitta too <G>
DANA	So if you win - you get something else
Deb Z	Is this what I won in the other class? If so I won't play . . .
DANA	Deb Z - same for you (won in Nilaya class)
Dawn	fantastic! thx
DANA	The way this works
DANA	1. I ask a question from the pdf tutorial
DANA	2. You post the answer HERE
DANA	3. First one listed on screen wins the March New kit
DANA	Anyone else that wants one - there are 8 left - and didn't put it in newsletters yet - brand new. So email me after class - to get yours!
Susann	looks like crossword puzzle
DANA	she is laying on pipecleaner on cutting mat
DANA	Deb Z ... mmmmm
nadine	ceiling tile?

DANA	we will have to get you something extra!
patty	cutting board
DANA	Thank you all for playing
Deb Z	Most days, I'm not this lucky!!!!
DANA	Deb Z correctly wrote the pipecleaner
DANA	The winning answer is The torso is laying on pipecleaner
DANA	Alrighty ladies ...
DANA	gotta get back to work ...
