1/30/2013

Finished TAVIA ... this is my first exclusive DESIGN A DOLL for Julie Clark. You can only get this kit on her website!

These are the gorgeous trims and silk that I bought in Chicago. REALLY worth it - to get the nicer materials once in a while!

Photo looks a little skewed ... had to take it from the top down to show her pretty face.

COOL TIPS ... found out while working on her ...

Did you realise that your needle-nose/fine tip tweezers can act as both a PIN and a clamp if you stick the ends into cork board while your piece is drying????

OR that you can use pearl ex powder to add to a feather - to make it look like a miniature peacock feather?

My printer broke yesterday in the middle of printing --- so she was a day delayed - but is so very pretty in real life.

Off to clean porcelain --- have a great night!
