DANA: GREAT!

DANA: Alrighty ...

DANA: today in intermediate wigigng

DANA: we will learn how to do 3 types of snob bob looks

DANA: and in the process learn how to do contemporary short hair and men.

DANA: The basic principles are the same

DANA: its just how much hair

DANA: curl and shape

DANA: you add to the individual heads.

DANA: Snob bob ...

DANA: do you ladies know what this looks like?

DANA: Its the one length hair - usually chin length ... that is gently curled under

DANA: hang on - I'll send a link

DANA: <http://msatminidolls.minilists.com/hollyho.htm>

DANA: let me know when you are back from checking it out

DANA: Do you know what a snob bob looks like?

DANA: <http://msatminidolls.minilists.com/hollyho.htm>

DANA: is the link in case you need a visual reference.

DANA: <http://msatminidolls.minilists.com/hollyho.htm>

DANA: check out that link for what we are doing

DANA: Wow - Austria, UK and two us students ...

DANA: aren't we international <G>

DANA: ANYHWAY

DANA: we are learning how to do the snob bob

DANA: <http://msatminidolls.minilists.com/hollyho.htm>

DANA: is the visual link

DANA: 3 different ways

DANA: and therefore create unique

DANA: contemporary and men hair styles as well

DANA: Karin and Verlie

DANA: did you check out the link?

DANA: Alrighty ...

DANA: here are the 3 diferent ways to make a snob bob

DANA: (bobbi you know what a snob bob is right?)

DANA: <http://msatminidolls.minilists.com/hollyho.htm>

DANA: is a link if you need a reference

DANA: One of the quickest and easiest ways ...

DANA: is to take and make a tight viscose curl

DANA: on size 9 knitting needle

DANA: (if you are abroad --- simply GOOGLE the american size knitting needle to convert to your country)

DANA: Now if you are new,

bobbi: waaaaaa I can't stay as I have to get set up for mini show today. will only stay for the bob

DANA: No worries girl! HOPE the show goes absolutely fantastic for you!!!

DANA: Alright

DANA: for those that don't know how to make a curl

DANA: take a section (thin) of viscose

bobbi: ty wanted to be here

DANA: mist both sides with plant mister

DANA: fileld with distilled water and drop of fabric stiffner to set hair

DANA: and lightly mist both sides of hair
DANA: then run hair through fingers
DANA: to eliminate any frizzies
DANA: now wrap this hair around size 9 knitting needle
DANA: TIGHTLY
DANA: (think florist tape wrapping)
DANA: and blow dry
DANA: when hair is cool
DANA: gently slide curl off rod
DANA: and let dry completely
DANA: (sometimes the inside of curl
DANA: next to rod
DANA: is still damp)
DANA: When curl is completely set
DANA: cut the curl horizontally
DANA: so that it resembles a *C* shape.
DANA: Now glue a line of glue down middle of doll's forehead
DANA: and with a tweezers
DANA: gently pick up a section of the curl
DANA: and put one end into the glue
DANA: repeat until both sides
DANA: of the glue *part*
DANA: is filled in with hair.
DANA: Let dry ... and then take a corsage pin
DANA: and carefully shape any stray hairs straight
DANA: Finish with a light misting of hair spray, smooth down frizzies with your finger
DANA: and wala!
DANA: Questions on making a Snob Bob - Technique #1?
bobbi: no ? will try it next week. Have fun girls poooooof
bobbi has left.
DANA: Alrighty ...
DANA: here is technique #2 ...
DANA: this one is going to be a varied SNOB BOB
DANA: and is also usefully for shaping into a contemporary hair style!
DANA: What I do is the following
DANA: 1. I paint the entire head of hair ... (scalp)
DANA: the SAME color as the viscose
DANA: this way
DANA: if any of the scalp shows through the curls
DANA: you won't see the blank spot
DANA: so after paint is dried
Karin: good idea
DANA: then lets give the girl some body
DANA: (thank you karin <G>)
DANA: Curl a few tighter curls on size 5 knitting needle
DANA: follow the same steps at the top making tiny *C* shapes
DANA: BUT put a line of glue from her ear lobe
DANA: around head to other ear lobe
DANA: HORIZONTALLY
DANA: now, glue on small sections of the smaller *C* shapes to this line
DANA: and let dry
DANA: pick apart carefully with corsage pin so that all scalp is covered

DANA: 2. Curl some size 7 (medium) curls
DANA: put a line of glue horizontally from the TOP of ear to TOP of ear
DANA: now put these size 7 *C* on that line of glue
DANA: when dry ...
DANA: carefully blend the curls into the bottom layer
DANA: if you do this right
DANA: it should just looks like nice waves ...
DANA: looser at the top
DANA: and tighter around her nape of neck
DANA: 3. Take some of the size 9 *C* curls and do the center part
DANA: This will give a nice looser bob ... with a bit of wedge (build up) underneath
DANA: i.e. a more contemporary style
DANA: Any questions on making a contemporary style bob?
nathalie-france has joined.
DANA: NATHALIE wecome!!!
nathalie-france: Hello, sorry I'm late, I just come back from office
DANA: No worries!

Welcome to our minidoll world!
DANA: then carefully wrap this pleated hair around a knittning needle
DANA: so just the top EDGE is curved
DANA: this way when you glue it on ...
DANA: the hair LOOKS like it is growing out of his chin/cheeks etc
DANA: and but the ends are still scraggly
DANA: questions on making the bald head man's head?
Julia: I missed the first part.
Juffiemarianne: Sounds great, does it tickle too
Juffiemarianne: LOL
DANA: Hang on one second Julia
DANA: utting them into a *C* shape DANA: you can just glue a line of these curls DANA: from ear to ear
(horizontally) DANA: and it will make the perfect BALD curved hair. DANA: You can also take a few secitons
of larger *C* curls DANA: and glue across the top of his balding head DANA: for a small comb ove
DANA: I tried to cut and copy it but the error message came up
DANA: did you guys see it?
marilyn_spencer: Yes
Juffiemarianne: Not the error message
Juffiemarianne: Till the small comb
